

# GET FRAMED

Can't afford a whole bike, but your frame doesn't fit well? Maybe you have a bike with great parts but a horrible aluminum bridge truss of a frame?

Well, how about ordering a Rodriguez frame/fork to hang those old parts on?

Here's the price listing. See the model pages for the frame's description and options:

Read Travel Page for S&S coupling travel options on any Rodriguez Frame.

Don't see it on the list? Just email or call for a quote. If we can't build it....it can't be built!

# HIGH-TECH COMFORT!

## Why do Rodriguez Bicycles fit better?

Most companies invest in expensive advertising or racing technologies. Fit is where we put our investment. We invest in happy customers who love their bikes and then rely on them to tell their friends about us.

Investing in bicycle fit meant huge changes in the way we produce bicycles. As you read some of the different articles in this catalog and on our web site, you can see how not just our bike sizes & methods of sizing have evolved, but how our entire method of manufacturing a bicycle had to change to provide the best service and most comfort for our customers.

We have invested in a manufacturing process to make custom made bicycles more affordable. We have designed our production methods around a 'one bicycle at a time' philosophy that produces more options for the modern cyclist than at any time in history. Throwing out the 'old ways' of manufacturing has freed us from the shackles of mass production. Smart design and a cyclist fit database that's unmatched in the industry have given us huge advantages over the competition.

To keep a long story short:

For 2012, we are offering 18 production sizes with designs to fit men and women. We can also produce a custom size frame for any model we make,

for any customer for just \$100 extra! Not only that, a complete custom sized bicycle will be produced in just 4 weeks or less from the date of order. That's the fastest guaranteed turn around time in the industry!

At Rodriguez, we believe that a custom fit bike should be affordable for anyone. There's no reason that someone should have to pay through the nose for a great fitting bike, or wait several months.

Most companies offer just 5 or 6 sizes, and don't even offer a custom size at all. If they do offer custom, the wait time is generally 2 months or longer.

The question is, with 18 sizes plus custom at just \$100 extra, why would anyone need to go anywhere else for a bike?

## More Sizes = More comfort

Rodriguez bicycles are all made in 18 sizes to fit men and women. We can fit 90% of riders from 4'10" to 6' 5" without going custom. For those who need custom sizing, it's only \$100 extra

## TEAM RODRIGUEZ

*"The bikes have been great. Very comfortable and sturdy. Some people question the 26 inch wheel, but I don't think it makes a difference at all, except maybe it's more comfortable and easier to pack in the cases."*

*Dave and Lynne in Tuscany with their Rodriguez UTB's*
